The directors of Bison Finance Group Limited (the “Company”) (the “Directors”) submit herewith the unaudited consolidated statement of profit or loss, unaudited consolidated statement of profit or loss and other comprehensive income, unaudited consolidated statement of changes in equity and unaudited condensed consolidated cash flow statement of the Company and its subsidiaries (collectively referred to as the “Group”) for the six months ended 30 June 2019 and the unaudited consolidated statement of financial position of the Group at 30 June 2019, together with the comparative figures for the six months ended 30 June 2018 and at 31 December 2018 respectively.

FINANCIAL REVIEW

Profit attributable to equity shareholders of the Company was approximately HK\$26.8 million for the six months ended 30 June 2019 (six months ended 30 June 2018: loss of approximately HK\$22.2 million), whilst profit from operations was approximately HK\$34.3 million for the six months ended 30 June 2019 (six months ended 30 June 2018: loss of approximately HK\$20.2 million). The increase in profit attributable to equity shareholders of the Company for the current period was mainly attributable to the increase in net unrealised gains on financial assets at fair value through profit or loss of approximately HK\$69.0 million, the increase in profit contributed by financial services business (the “Financial Services Business”) of approximately HK\$13.7 million, the increased segment profit attributable to media and advertising business (the “Media Business”) of approximately HK\$8.4 million with satisfactory performance achieved for BUS-BODY and BUS-SHELTER, net off by the increase in share-based payment expenses and staff costs of approximately HK\$20.6 million and approximately HK\$5.8 million respectively and the increased overall operation costs of approximately HK\$15.7 million. Please refer to note 3 to the financial statements for further details of financial performance of operating segments of the Group.

Operating Revenue

For the six months ended 30 June 2019, the Group reported total operating revenue of approximately HK\$304.6 million (six months ended 30 June 2018: approximately HK\$169.2 million), representing an increase of 80% from last period, of which approximately HK\$186.0 million was from the Media Business (six months ended 30 June 2018: approximately HK\$160.4 million), approximately HK\$46.1 million was from the Financial Services Business (six months ended 30 June 2018: approximately HK\$6.3 million) and approximately HK\$72.5 million was from other revenue and other net income (six months ended 30 June 2018: approximately HK\$2.5 million). The overall increase in operating revenue was mainly due to the increase in net unrealised gains on financial assets at fair value through profit or loss of approximately HK\$69.0 million and the increase in revenue contributed from the external asset management (“EAM”) and fund management services of approximately HK\$35.1 million.

Operating Expenses

The Group’s operating expenses increased by approximately HK\$81.0 million, representing 42.8% increase from approximately HK\$189.4 million for the six months ended 30 June 2018 to approximately HK\$270.4 million for the six months ended 30 June 2019, mainly due to the increase in staff expenditure of approximately HK\$39.1 million which included the recognition of share-based payment expenses under a share award scheme of approximately HK\$20.6 million during the reporting period, the increase in cost of services of approximately HK\$14.3 million, the increase in royalty, licence and management fees of approximately HK\$5.3 million, the increase in cost of production of approximately HK\$5.7 million and the increase in amortisation of intangible assets of approximately HK\$4.7 million.

BUSINESS REVIEW AND PROSPECTS

The Group is principally engaged in the Financial Services Business and the Media Business during the reporting period. The Group will continue to develop our Financial Services Business and Media Business, and will also cautiously formulate plans in developing the Financial Services Business in the future.

(1) Financial Services Business

On 14 December 2018, the Group completed the acquisition of Target Capital Management Limited (“TCM”) and BTS Investment Limited, BTY Investment Limited, NanTai Investment Limited and Shangtai Asset Management Limited (collectively, the “Subject Companies”), and the Group is licensed to engage in Type 1 (dealing in securities), Type 4 (advising on securities) and Type 9 (asset management) regulated activities since then. The assets under management (“AUM”) of EAM climbed to approximately HK\$5.8 billion at 30 June 2019 (31 December 2018: approximately HK\$5.0 billion), while the committed AUM of fund management services fell to approximately HK\$8.4 billion (31 December 2018: approximately HK\$9.4 billion). During the six months ended 30 June 2019, TCM and the Subject Companies contributed approximately HK\$35.1 million (six months ended 30 June 2018: HK\$Nil) of revenue and approximately HK\$27.9 million (six months ended 30 June 2018: HK\$Nil) of operating expenses. During the period, TCM obtained admission as a Participant of The Stock Exchange of Hong Kong Limited to commence its licensed activities in securities trading. The Group will continue to deploy resources to develop its securities business, aiming at broadening its scope of services and developing synergies by providing integrated financial products and services to corporate and individual clients. The Group is of the view that the new businesses will contribute a growing income stream in the future. Despite the uncertainties of global economy brought by trade friction and geopolitical tensions, the Group will continue to make use of the global network, to expand the customer base and support continuous development of the EAM and investment advisory services.

Driven by the development of the domestic sports industry and the increase in overall awareness of health and wealth management, sports related insurance industry maintained a steadily growing momentum in the People’s Republic of China (the “PRC”). The revenue derived from the insurance brokerage business during the six months ended 30 June 2019 amounted to approximately HK\$10.6 million (six months ended 30 June 2018: approximately HK\$6.3 million).

Save as disclosed, the Group has no material acquisition and disposal of subsidiaries, associates and joint ventures during the six months ended 30 June 2019.

(2) Media Business

The Group continued to be engaged in BUS-BODY advertising, BUS-INTERIOR advertising, BUS-SHELTER advertising, BILLBOARDS advertising, and provision of integrated marketing solutions services in Hong Kong. During the six months ended 30 June 2019, the Media Business recorded revenue of approximately HK\$186.0 million (six months ended 30 June 2018: approximately HK\$160.4 million). The Group shall continue to stretch the interactive capabilities of its digital panels in conjunction with devising more creative domination campaigns, at the bus shelters to drive the growth of this business unit and to explore the possibility of business expansion and collaboration with other entities should opportunities arise.

The Group has been exploring opportunities for investments to diversify income stream and maximise returns for its shareholders. During the reporting period, the Group invested HK\$93.0 million in limited partner interests in BeiTai Investment LP (the “Investment Fund”). The investment objective of the Investment Fund is to generate capital appreciation for its limited partners by investing in debt securities or equity securities of both private and listed companies in Hong Kong or elsewhere as its general partner may determine. Such investment is a passive investment and the Group, as a limited partner, is entitled to receive distributions of the Investment Fund in accordance with the Group’s capital commitment therein, but has no right to participate in the day-to-day operations of the Investment Fund, nor does it have control over the management of the Investment Fund. The Board believes that such investment will enable the Group to capture investment opportunities and increase the efficiency of its financial resources. It is expected that the investment will generate a reasonable return for the duration of the Group’s investments in the Investment Fund. At 30 June 2019, the underlying investments of the Investment Fund represented equity securities listed in Hong Kong. During the six months ended 30 June 2019, the Group recorded an unrealised gain on financial assets at fair value through profit or loss of approximately HK\$69.0 million from the Investment Fund.

With a view to strengthen its business portfolio, the Group will continue to identify other investment opportunities when they arise with an attempt to maximise returns for the shareholders.

Notes to the Unaudited Interim Financial Report

(Expressed in Hong Kong dollars unless otherwise indicated)

1. Basis of preparation

This interim financial report has been prepared in accordance with the applicable disclosure provisions of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited (the “Listing Rules”), including compliance with Hong Kong Accounting Standard (“HKAS”) 34, *Interim financial reporting*, issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”). It was authorised for issue on 23 August 2019.

The interim financial report has been prepared in accordance with the same accounting policies adopted in the 2018 annual financial statements, except for the accounting policy changes that are expected to be reflected in the 2019 annual financial statements. Details of any changes in accounting policies are set out in note 2.

The preparation of an interim financial report in conformity with HKAS 34 requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses on a year to date basis. Actual results may differ from these estimates.

This interim financial report contains condensed consolidated financial statements and selected explanatory notes. The notes include an explanation of events and transactions that are significant to an understanding of the changes in financial position and performance of the Group since the 2018 annual financial statements. The condensed consolidated interim financial statements and notes thereto do not include all of the information required for a full set of financial statements prepared in accordance with Hong Kong Financial Reporting Standards (“HKFRSs”) issued by the HKICPA.

This interim financial report is unaudited, but has been reviewed by KPMG in accordance with Hong Kong Standard on Review Engagements 2410, *Review of interim financial information performed by the independent auditor of the entity*, issued by the HKICPA. KPMG’s independent review report to the Board of Directors is included on page 36.

The financial information relating to the financial year ended 31 December 2018 that is included in the interim financial report as comparative information does not constitute the Company’s statutory annual consolidated financial statements for that financial year but is derived from those financial statements. Statutory financial statements for the year ended 31 December 2018 are available from the Company’s principal place of business in Hong Kong. The auditors have expressed an unqualified opinion on those financial statements in their report dated 22 March 2019.

Notes to the Unaudited Interim Financial Report

(Expressed in Hong Kong dollars unless otherwise indicated)

2. Changes in accounting policies

The HKICPA has issued a new HKFRS, HKFRS 16, *Leases*, and a number of amendments to HKFRSs that are first effective for the current accounting period of the Group.

Except for HKFRS 16, *Leases*, none of the developments have had a material effect on how the Group's results and financial position for the current or prior periods have been prepared or presented in this interim financial report. The Group has not applied any new standard or interpretation that is not yet effective for the current accounting period.

HKFRS 16, *Leases*

HKFRS 16 replaces HKAS 17, *Leases*, and the related interpretations, HK(IFRIC) 4, *Determining whether an arrangement contains a lease*, HK(SIC) 15, *Operating leases – incentives*, and HK(SIC) 27, *Evaluating the substance of transactions involving the legal form of a lease*. It introduces a single accounting model for lessees, which requires a lessee to recognise a right-of-use asset and a lease liability for all leases, except for leases that have a lease term of 12 months or less ("short-term leases") and leases of low value assets.

The Group has initially applied HKFRS 16 as from 1 January 2019. The Group has elected to use the modified retrospective approach and has therefore recognised the cumulative effect of initial application as an adjustment to the opening balance of equity at 1 January 2019. Comparative information has not been restated and continues to be reported under HKAS 17.

Further details of the nature and effect of the changes to previous accounting policies and the transition options applied are set out below:

(a) Changes in the accounting policies

(i) *New definition of a lease*

The change in the definition of a lease mainly relates to the concept of control. HKFRS 16 defines a lease on the basis of whether a customer controls the use of an identified asset for a period of time, which may be determined by a defined amount of use. Control is conveyed where the customer has both the right to direct the use of the identified asset and to obtain substantially all of the economic benefits from that use.

The Group applies the new definition of a lease in HKFRS 16 only to contracts that were entered into or changed on or after 1 January 2019. For contracts entered into before 1 January 2019, the Group has used the transitional practical expedient to grandfather the previous assessment of which existing arrangements are or contain leases.

Accordingly, contracts that were previously assessed as leases under HKAS 17 continue to be accounted for as leases under HKFRS 16 and contracts previously assessed as non-lease service arrangements continue to be accounted for as executory contracts.

2 Changes in accounting policies (continued)

(a) Changes in the accounting policies (continued)

(ii) *Lessee accounting*

HKFRS 16 eliminates the requirement for a lessee to classify leases as either operating leases or finance leases, as was previously required by HKAS 17. Instead, the Group is required to capitalise all leases when it is the lessee, including leases previously classified as operating leases under HKAS 17, other than those short-term leases and leases of low-value assets. As far as the Group is concerned, these newly capitalised leases are primarily in relation to property, plant and equipment as disclosed in note 22(b).

When the Group enters into a lease in respect of a low-value asset, the Group decides whether to capitalise the lease on a lease-by-lease basis. The lease payments associated with those leases which are not capitalised are recognised as an expense on a systematic basis over the lease term.

Where the lease is capitalised, the lease liability is initially recognised at the present value of the lease payments payable over the lease term, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, using a relevant incremental borrowing rate. After initial recognition, the lease liability is measured at amortised cost and interest expense is calculated using the effective interest method. Variable lease payments that do not depend on an index or rate are not included in the measurement of the lease liability and hence are charged to profit or loss in the accounting period in which they are incurred.

The right-of-use asset recognised when a lease is capitalised is initially measured at cost, which comprises the initial amount of the lease liability plus any lease payments made at or before the commencement date, and any initial direct costs incurred. Where applicable, the cost of the right-of-use assets also includes an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, discounted to their present value, less any lease incentives received.

2 Changes in accounting policies (continued)

(a) Changes in the accounting policies (continued)

(ii) *Lessee accounting* (continued)

The right-of-use asset is subsequently stated at cost less accumulated depreciation and impairment losses.

The lease liability is remeasured when there is a change in future lease payments arising from a change in an index or rate, or there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee, or there is a change arising from the reassessment of whether the Group will be reasonably certain to exercise a purchase, extension or termination option. When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

(b) Transitional impact

At the date of transition to HKFRS 16 (i.e. 1 January 2019), the Group determined the length of the remaining lease terms and measured the lease liabilities for the leases previously classified as operating leases at the present value of the remaining lease payments, discounted using the relevant incremental borrowing rates at 1 January 2019. The weighted average of the incremental borrowing rates used for determination of the present value of the remaining lease payments was 2.8%.

To ease the transition to HKFRS 16, the Group applied the following recognition exemption and practical expedients at the date of initial application of HKFRS 16:

- (i) the Group elected not to apply the requirements of HKFRS 16 in respect of the recognition of lease liabilities and right-of-use assets to leases for which the remaining lease term ends within 12 months from the date of initial application of HKFRS 16, i.e. where the lease term ends on or before 31 December 2019; and
- (ii) when measuring the lease liabilities at the date of initial application of HKFRS 16, the Group applied a single discount rate to a portfolio of leases with reasonably similar characteristics (such as leases with a similar remaining lease term for a similar class of underlying asset in a similar economic environment).

2 Changes in accounting policies (continued)

(b) Transitional impact (continued)

The following table reconciles the operating lease commitments as disclosed in note 22(b) as at 31 December 2018 to the opening balance for lease liabilities recognised as at 1 January 2019:

	1 January 2019 HK\$'000
Operating lease commitments at 31 December 2018	15,957
Less: commitments relating to leases exempt from capitalisation: – short-term leases and other leases with remaining lease term ending on or before 31 December 2019	(4,695)
	11,262
Less: total future interest expenses	(256)
Present value of remaining lease payments, discounted using the incremental borrowing rate at 1 January 2019	11,006
Add: finance lease liabilities recognised as at 31 December 2018	6,635
Total lease liabilities recognised at 1 January 2019	17,641

The right-of-use assets in relation to leases previously classified as operating leases have been recognised at an amount equal to the amount recognised for the remaining lease liabilities, adjusted by the amount of any prepaid or accrued lease payments relating to that lease recognised in the consolidated statement of financial position at 31 December 2018.

So far as the impact of the adoption of HKFRS 16 on leases previously classified as finance leases is concerned, the Group is not required to make any adjustments at the date of initial application of HKFRS 16, other than changing the captions for the balances. Accordingly, instead of “finance lease liabilities”, these amounts are included within “lease liabilities”, and the depreciated carrying amount of the corresponding leased asset is identified as a right-of-use asset. There is no impact on the opening balance of equity.

The Group presents right-of-use assets in “property, plant and equipment” and presents lease liabilities separately in the consolidated statement of financial position.

3. Segment reporting

The Group manages its businesses by business line (products and services) and has reportable operating segments as follows:

- (a) Financial services – investment advisory services business, provision of securities brokerage business, fund management business, insurance brokerage business and loan financing business; and
- (b) Media – provision of media sales, design and management services and production of advertisements.

EBITDA is a non-HKFRS measure used by management for monitoring business performance. The Group's EBITDA is defined as the Group's profit/loss before finance costs, income tax, depreciation and amortisation. Management monitors the results of the Group's operating segments separately for the purpose of making decisions about resources allocation and performance assessment. Segment performance is evaluated based on reportable segment profit/loss, which is a measure of adjusted profit/loss before interest, taxes, depreciation and amortisation (adjusted EBITDA). The adjusted profit/loss is measured consistently with the Group's profit before tax except that certain income and gains/losses, finance costs as well as head office and corporate expenses are excluded from such measurement.

Segment assets and liabilities include all current and non-current assets and liabilities, respectively, which are directly managed by the segments, excluding unallocated head office and corporate assets and liabilities as these assets and liabilities are managed on a group basis.

There are no sales between the reportable segments.

The Group managed its business by geographical areas in the past. During the six months ended 30 June 2018, no segment analysis information was presented given the diminishing operation of the Group's media business and relatively insignificant insurance brokerage business in the PRC. During the year ended 31 December 2018, management has revisited the reportable segments and the Group's internal reporting by managing its business by business line. After taking into account the future strategic plan and size of the recently acquired operations, it was determined that the investment advisory services business and fund management business acquired in December 2018 and the insurance brokerage business acquired in December 2017 be grouped under the financial services segment; while the media and advertising business be grouped under the media segment. The corresponding segment information for the six months ended 30 June 2018 has been restated.

3. Segment reporting (continued)

7. Dividends

- (a) No interim dividend is payable for the six months ended 30 June 2019 (six months ended 30 June 2018: HK\$Nil). Final dividends, if any, will be proposed at the full financial year end.

8. Earnings/(loss) per share

(a) Basic earnings/(loss) per share

The calculation of basic earnings per share is based on the profit/(loss) attributable to ordinary equity shareholders of the Company of approximately HK\$26,782,000 for the six months ended 30 June 2019 (six months ended 30 June 2018: loss of approximately HK\$22,171,000) and the weighted average of 1,152,670,923 ordinary shares (six months ended 30 June 2018: 1,067,807,321 ordinary shares) in issue during the period. The weighted average number of ordinary shares is arrived at after deducting the shares held for the share award scheme (the "Share Award Scheme").

Weighted average number of ordinary shares

	Six months ended 30 June	
	2019 '000	2018 '000
Issued ordinary shares at 1 January	1,184,865	997,365
Effect of placing new shares	–	70,442
Adjustment of shares award scheme	(32,194)	–
Weighted average number of ordinary shares at 30 June	1,152,671	1,067,807

(b) Diluted earnings/(loss) per share

There were no dilutive potential ordinary shares outstanding during the six months ended 30 June 2019 and 2018 and diluted earnings/(loss) per share is the same as basic earnings/(loss) per share.

9. Property, plant and equipment

The Group has initially applied HKFRS 16 using the modified retrospective method and adjusted the opening balances at 1 January 2019 to recognise right-of-use assets relating to leases which were previously classified as operating leases under HKAS 17. In addition, the depreciated carrying amount of the finance leased assets which were previously included in other property, plant and equipment is also identified as right-of-use assets. Further details on the net book value of the Group's right-of-use assets by class of underlying asset are set out in note 2.

During the six months ended 30 June 2019, no lease agreements were entered by the Group, and therefore no new addition of right-of-use assets.

Notes to the Unaudited Interim Financial Report

(Expressed in Hong Kong dollars unless otherwise indicated)

10. Goodwill

	HK\$'000
Cost and carrying amount:	
At 1 January 2018	40,770
Acquisition of subsidiaries	178,444
Exchange adjustments	(2,038)
At 31 December 2018, 1 January 2019 and 30 June 2019	217,176

Impairment tests for cash-generating units containing goodwill

Goodwill is allocated to the Group's cash-generating units (CGU) as follows:

	At 30 June 2019 HK\$'000	At 31 December 2018 HK\$'000
Insurance brokerage business	38,732	38,732
Investment advisory services business and fund management business (note)	178,444	178,444
	217,176	217,176

Note: An independent valuation was performed by external valuer for 2019 interim impairment review.

The recoverable amount of the CGU is determined based on value-in-use calculations. These calculations use cash flow projections based on historical data and financial budgets approved by Board of Directors covering a five-year (31 December 2018: five-year) period. Cash flows beyond the five-year period are extrapolated using an estimated weighted average growth rate. The growth rates used do not exceed the long-term average growth rates for the businesses in which the CGUs operate. The cash flows are discounted using a discount rate which is pre-tax and reflects specific risks relating to the relevant CGU.

10. Goodwill (Continued)

For each of the CGUs with significant amount of goodwill, the key assumptions used in the value-in-use calculations in 2019 and 2018 are as follows:

	At 30 June 2019		At 31 December 2018	
	Investment advisory and fund management	Insurance brokerage	Investment advisory and fund management	Insurance brokerage
% of revenue growth	4%-6%	15%-20%	6%	15%-20%
Long term growth rate	3%	3%	3%	3%
Pre-tax discount rate	17%	19%	17%	19%

Based on the above key assumptions and detailed five-year budget plan, the Board of Directors concluded there was no impairment to goodwill as the carrying amount of each of the CGUs did not exceed its recoverable amount.

The Board of Directors is not aware of any possible significant change to the above key assumptions on which the recoverable amount is based which would cause the carrying amount of the CGUs to exceed their respective recoverable amounts.

11. Non-current prepayments and deposits

Non-current prepayments and deposits comprise the followings:

	At 30 June 2019 HK\$'000	At 31 December 2018 HK\$'000
Purchase of property, plant and equipment	16,533	15,032
Security and other deposits	43,127	39,811
	59,660	54,843

12. Financial assets at fair value through profit or loss

On 22 February 2019, Premier Future Limited (“Premier Future”), a wholly-owned subsidiary of the Group, and BeiTai Investment Limited (the “General Partner”), an independent third party, entered into a subscription agreement (the “Subscription Agreement”), pursuant to which Premier Future has agreed to subscribe for limited partner interests in BeiTai Investment LP (the “Investment Fund”), with a capital commitment of HK\$93,000,000.

The Investment Fund is a close-ended private equity fund structured as a Cayman Islands exempted limited partnership with an investment objective to achieve long-term capital appreciation through investments in convertible bonds and other investments. Under the Subscription Agreement, limited partners do not have the power to participate in the financial and operating policy decisions of the Investment Fund, whilst the general partner has the rights and power to administer the affairs of the Investment Fund and include all powers statutory and otherwise, which may be possessed under the laws of Cayman Islands. The Board of Directors considered the Group has neither significant influence nor joint control over the Investment Fund and therefore it is classified as financial assets at fair value through profit or loss in accordance with the requirements under HKFRS 9, Financial Instruments.

Details of the transaction have been disclosed in the Company’s announcement dated 22 February 2019.

During the six months ended 30 June 2019, net unrealised gain on the Investment Fund of approximately HK\$68,992,000 (six months ended 30 June 2018: HK\$Nil), which the underlying investments of the Investment Fund represented equity securities listed in Hong Kong, was recognised in the consolidated statement of profit or loss.

Notes:

- (i) On 28 December 2018, the Company issued promissory note in the principal amount of HK\$100,000,000 to Kinetic Creation Global Investments Limited (“Kinetic”), a wholly-owned subsidiary of CCB International (Holdings) Limited. The promissory note bears interest at a rate of 9% per annum and has a term of one calendar year and may be extended for another year subject to Kinetic’s approval. The promissory note is subject to the fulfilment of covenants relating to certain of the Group’s balance sheet ratios, as are commonly found in lending arrangements with financial institutions. If the Group were to breach the covenants the promissory note would become payable on demand. The Group regularly monitors its compliance with these covenants. As at 30 June 2019, none of the covenants relating to the drawn down facilities had been breached (31 December 2018: None).
- (ii) On 14 December 2018, upon acquisition of certain subsidiaries, a wholly-owned subsidiary of the Company issued promissory notes in the principal amount of HK\$220,000,000 as part of the consideration. The promissory notes bore interest at a rate of 3% per annum and were redeemed by the subsidiary on the even date.

21. Fair value measurement of financial instruments

(a) Financial assets and liabilities measured at fair value

Fair value hierarchy

The following table presents the fair value of the Group's financial instruments measured at the end of the reporting period on a recurring basis, categorised into the three-level fair value hierarchy as defined in HKFRS 13, *Fair value measurement*. The level into which a fair value measurement is classified is determined with reference to the observability and significance of the inputs used in the valuation technique as follows:

- Level 1 valuations: Fair value measured using only Level 1 inputs i.e. unadjusted quoted prices in active markets for identical assets or liabilities at the measurement date.
- Level 2 valuations: Fair value measured using Level 2 inputs i.e. observable inputs which fail to meet Level 1, and not using significant unobservable inputs. Unobservable inputs are inputs for which market data are not available.
- Level 3 valuations: Fair value measured using significant unobservable inputs.

	Fair value measurements as at 30 June 2019 categorised into			
	Fair value at 30 June 2019 HK\$'000	Level 1 HK\$'000	Level 2 HK\$'000	Level 3 HK\$'000

The Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited require the preparation of an interim financial report to be in compliance with the relevant provisions thereof and Hong Kong Accounting Standard 34, *Interim financial reporting*, issued by the Hong Kong Institute of Certified Public Accountants. The directors are responsible for the preparation and presentation of the interim financial report in accordance with Hong Kong Accounting Standard 34.

Our responsibility is to form a conclusion, based on our review, on the interim financial report and to report our conclusion solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Scope of review

We conducted our review in accordance with Hong Kong Standard on Review Engagements 2410, *Review of interim financial information performed by the independent auditor of the entity*, issued by the Hong Kong Institute of Certified Public Accountants. A review of the interim financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Hong Kong Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the interim financial report as at 30 June 2019 is not prepared, in all material respects, in accordance with Hong Kong Accounting Standard 34, *Interim financial reporting*.
